

Contents

Foreword vii

Preface..... ix

Introduction..... 1

 Pedagogical Content Knowledge..... 1

 Model of Teacher Knowledge 3

 Characteristics of Tasks 7

 Types of Questions..... 9

 Conclusion..... 10

Chapter 1

The Concept of a Function 11

 Introducing Functions Qualitatively: Car-Wash Scenario 13

 Common Misconceptions in Students' Thinking about Functions 17

 Developing a Robust Understanding of Domain and Range..... 22

 Conclusion..... 26

Chapter 2

Covariance 27

 Levels of Covariational Reasoning..... 27

 Supporting Local and Global Perspectives on Covariation 31

 Lake Depth..... 31

 Parking Fees..... 34

 Boat Rental 36

 Supporting Reasoning about Quadratic Rates of Change 39

 Falling Object..... 41

 Filling Bottle..... 43

Sliding Ladder 45

Interpreting the Covariance of Two Variables 49

Conclusion 51

Chapter 3

Combining and Transforming Functions 53

Combining Functions 55

 Addition of functions..... 56

 Subtraction of functions 58

 Multiplication of functions..... 61

 Division of functions..... 63

 A summative activity in combining functions 66

Composing Functions 68

 Extending understanding: Car-wash coupons and discounts..... 69

 Further explorations in combining and composing functions:

 Prom Room Rental, Delivery Fees..... 74

Transformations 75

 Issues of scale: Painting the mascot..... 76

 Transforming with coefficients or constants..... 80

 Applications for translations: Car-Wash Prices, Water’s Height,
 Water’s Surface Area 81

Conclusion 88

Chapter 4

Graphs as Representations of Functions 91

Addressing Misconceptions about Graphs..... 93

 Velocity of One Car..... 93

 Comparing Two Cars, Given Distance..... 96

 Comparing Two Cars, Given Speed..... 99

 Two Walkers..... 102

Assessing Understanding of Graphs.....	107
Conclusion.....	109
Giving students a robust sense of function: Chapter 1	110
Supporting emerging understanding of covariation: Chapter 2	110
Making combining, composing, and transforming functions natural activities: Chapter 3	111
Helping students interpret graphs of functions flexibly: Chapter 4	112
Chapter 5	
Looking Back and Ahead with Functions	115
Building a Base for Functions in Kindergarten–Grade 8.....	115
Extending Understanding of Functions after Grades 9–12.....	123
Conclusion.....	137
Appendix 1	
The Big Ideas and Essential Understandings for Functions.....	139
Appendix 2	
Resources for Teachers.....	143
Appendix 3	
Tasks	147
Function Wall	148
Function Finder.....	150
Lake Depth	151
Parking Fees.....	154
Boat Rental	157
Falling Object.....	161
Sliding Ladder	164
Water’s Height in a Trough	167
Water’s Surface Area on the End of a Trough.....	171

Contents

Velocity of One Car 175

Comparing Two Cars, Given Distance 178

Comparing Two Cars, Given Speed. 180

Two Walkers..... 182

References..... 187

Accompanying Materials at More4U

Appendix 1
The Big Ideas and Essential Understandings for Functions

Appendix 2
Resources for Teachers

Appendix 3
Tasks

- Function Wall
- Function Finder
- Lake Depth
- Parking Fees
- Boat Rental
- Falling Object
- Sliding Ladder
- Water’s Height in a Trough
- Water’s Surface Area on the End of a Trough
- Velocity of One Car
- Comparing Two Cars, Given Distance
- Comparing Two Cars, Given Speed
- Two Walkers
