Preface to <i>Curriculum Focal Points for Prekindergarten through Grade 8 Mathematics</i>	ix
--	-----------

Acknowledgments	x
------------------------------	----------

1. Introduction

Purpose of This Guide	1
Purpose of Curriculum Focal Points.....	1
Impact of Focal Points on Curriculum, Instruction, and Assessment.....	2
Using This Guide in Study Groups or Learning Communities	2
Bringing Focus into the Classroom: Classrooms That Build Understanding and Fluency	3
Using mathematical drawings	3
Learning phases	4
Moving to mathematically desirable methods.....	4
The standard algorithmic approach.....	4
Conceptual prerequisites	5
In-depth instructional conversations	5
Differentiating instruction within whole-class activities	6
Learning similarities across number and operations, geometry, and measurement.....	6
Effective Teaching-Learning Practices.....	7
Organization of This Book.....	7

2. Number and Operations

Overview	9
The Number Core.....	11

Contents — Continued

The number core developed in preschool and kindergarten.....	11
Difficulties in English number words for 11 to 19.....	12
Difficulties in English number words for 20 to 99.....	14
A kindergarten advance: Seeing/making ten and some ones for a teen number.....	15
Understanding monetary values	18
Learning the number-word list to 100.....	19
Written work for triads to ten and for teens.....	20
The number core developed in grade 1	20
The Relations (More Than/Less Than) Core	23
The relations (more than/less than) core developed in preschool and kindergarten	23
The relations core (more than/less than) developed in grade 1	25
The Operations (Addition and Subtraction) Core	26
Overview.....	26
The operations core developed in preschool and kindergarten.....	26
The operations core developed in grade 1	32

3. Geometry, Spatial Reasoning, and Measurement

Geometry	55
Shape and structure.....	56
Spatial relations	63
Compositions and decompositions in space	66
Measurement.....	70
Length.....	71
Area.....	74
Volume	75
Geometry, Spatial Reasoning, and Measurement: Final Words	76

Contents — Continued

4. Mathematizing: Solving Problems, Reasoning, and Communicating, Connecting, and Representing Ideas in First Grade	79
References	81
