Preface: Broadening the Critical Conversations	xi
---	-----------

Chapter 1: Why We Need to Catalyze Change	1
--	----------

Progress in Early Childhood and Elementary Mathematics	2
Children’s Experiences in Learning Mathematics	3
Moving to Ambitious and Equitable Teaching of Mathematics	5
Challenges in Realizing Deeper Mathematical Understanding	6
Continuity from Early Childhood to Elementary Mathematics	8
Key Recommendations	9

Chapter 2: Broadening the Purposes of School Mathematics...	11
--	-----------

Develop Deep Mathematical Understanding	12
Understand and Critique the World through Mathematics	15
Experience the Wonder, Joy, and Beauty of Mathematics	17
The Power of Multiple Purposes	22

Chapter 3: Creating Equitable Structures in Mathematics	25
--	-----------

Ability Grouping and Tracking: From Exclusion to Inclusion	26
Preschool and Kindergarten: From Readiness to Learning	30
Assessment: From High Stakes to “Sitting Beside”	33
Mathematics Curriculum: From Fidelity to Integrity	37
Supporting Success of Children and Teachers	41

Chapter 4: Implementing Equitable Mathematics

Instruction	45
What Mathematics and for Whom?	45
Developing Mathematical Identity	48
Developing Mathematical Agency	50
Teacher Mathematical Identity	51
Equitable Mathematics Teaching	56
Mathematics Teaching Framework	65
Collaborating for Equitable Mathematics Instruction.....	67

Chapter 5: Building a Foundation of Deep Mathematical

Understanding	69
Part 1: Children as <i>Doers</i> of Mathematics	70
Representing and Connecting	73
Explaining and Justifying.....	74
Contextualizing and Decontextualizing	75
Noticing and Using Mathematical Structures.....	76
Part 2: Children as <i>Knowers</i> and <i>Sense Makers</i> of Mathematics.....	77
Developing Whole Number Concepts and Operations	78
Developing Fraction Concepts and Operations	92
Developing Early Algebraic Concepts and Reasoning.....	101
Developing Data Concepts and Statistical Thinking.....	108
Developing Geometry and Measurement Concepts and Spatial Reasoning.....	114
Supporting Implementation of Deeper Mathematics Learning.....	120

Chapter 6: Next Steps for Catalyzing Change.....

Key Recommendations Restated.....	123
Actions for Teachers in Early Childhood Settings.....	124
Actions for Teachers in Elementary Schools.....	125
Actions for Leaders	125

Actions for Policymakers.....	126
Actions for Teachers Educators.....	127
Actions for NCTM	127
Conclusion.....	127
References	129
