

# CONTENTS

ACKNOWLEDGMENTS.....	v
INTRODUCTION .....	vii
<b>I. MATHEMATICS TEACHING AND LEARNING.....</b>	<b>1</b>
1. How Should Elementary Math Class Look and Sound? .....	3
2. Learning Mathematics with Understanding .....	17
<b>II. LAYING THE GROUNDWORK.....</b>	<b>33</b>
3. Preparing for a Successful Beginning .....	35
4. Setting Up Your Classroom .....	45
5. Building a Supportive Learning Community .....	53
6. Establishing Routines to Support Mathematics Learning .....	75
7. Developing Computational Fluency .....	91
<b>III. THE LESSON CYCLE .....</b>	<b>113</b>
8. Tasks That Promote Learning Math with Understanding.....	115
9. Lesson Planning.....	129
10. Lesson Enactment .....	151
11. Lesson Reflection.....	169
<b>IV. ESSENTIAL ELEMENTS OF EFFECTIVE     MATHEMATICS TEACHING .....</b>	<b>193</b>
12. Mathematical Discourse .....	195
13. Assessment and Feedback .....	215
14. Differentiation: Meeting the Needs of Diverse Learners .....	235
15. Homework .....	251
