

Contents

Foreword vii

Preface..... ix

Introduction..... 1

 Pedagogical Content Knowledge..... 1

 Model of Teacher Knowledge 3

 Characteristics of Tasks 7

 Types of Questions..... 9

 Conclusion 10

Chapter 1

Statistical Modeling 11

 What Constitutes a Statistical Model?..... 12

 Statistics versus Mathematics 19

 A Statistics Scenario: Recycling at Red Mountain High School 24

 Model-Eliciting Activities 27

 Using a Model-Eliciting Activity: iPod Shuffle 29

 Conclusion 31

Chapter 2

Variability 33

 Distinguishing *Variability* from *Accuracy* in an Inventing
 Activity: Pitching Machines 36

 Exploring Variability: Recycling at Red Mountain
 High School, Continued 43

 Variability and Sampling..... 44

 Sampling Distributions..... 45

Simulating Random Samples.....	50
Classifying Students' Statistical Understanding	53
Sampling Distributions versus Population Distributions.....	54
Conclusion.....	58

Chapter 3

Data Collection and Hypothesis Testing 59

Random Assignment and Random Selection: Recycling at Red Mountain High School, Revisited	60
Clarifying and Reinforcing Intuition about Sample Size	64
Applying Insights: Moving the Recycling Project Forward.....	65
Levels of Thinking about Sampling.....	67
The Need for Hypothesis Testing	69
The Usefulness of Confidence Intervals	76
Inferential Concepts in Action: A Return to the Recycling Scenario	79
Footnote: Wrapping Up the Recycling Experiment	87
Conclusion.....	89

Chapter 4

Estimators 91

Bias and Variability in Estimators: An Archery Analogy	92
Using Simulation to Understand Bias in Estimators.....	93
Developing an Estimator of an Unknown Parameter: Raffling to Support Recycling.....	96
Influence of Sample Size on Precision and Accuracy of Estimators	101
Conclusion.....	104

Chapter 5

Looking Back and Looking Ahead with Statistics 107

Looking Back: Statistics in Grades 6–8	107
Working with statistics in grade 6	110

Building statistical reasoning in grade 7	114
Shifting the focus to bivariate data in grade 8	116
Looking Ahead: Statistics beyond Grade 12.....	121
Conclusion.....	126
Appendix 1	
The Big Ideas and Essential Understandings for Statistics	127
Appendix 2	
Resources for Teachers.....	129
Appendix 3	
Tasks	135
Inventing Activities	136
Trampoline Testing.....	137
Rocket Testing.....	139
Developing an Estimator.....	140
Raffling to Support Recycling.....	141
References	149
