Snip it! Clip it!

Media Clips takes a snippet from the news and poses mathematical questions. Have you read, seen, or heard something intriguing in the media that can be used in the classroom? The news is full of assertions and conclusions that students can explore and test. Using a news item that has grabbed your attention, develop a few questions

that help students see the mathematics behind the story. Send questions and solutions, including a copy of the original piece, to one of the Media Clips editors: Louis Lim (louis.lim1@gmail.com) or Chris Bolognese (cbolognese@uaschools.org).
