

# Problem of the Month

These nonroutine, fun problems invite multiple approaches and provide creative opportunities for individual students or math clubs. Send in your students' solutions—*MT* will celebrate their accomplishments by publishing selected work. Submit your student solutions directly to the Problem of the Month editors: Seán Madden, [smadden@greeleyschool.org](mailto:smadden@greeleyschool.org), and Ricardo Diaz, [ricardo.diaz@unco.edu](mailto:ricardo.diaz@unco.edu).

Or, if you have a great problem to share, send it to the editors at any time!
