

DUNCAN 1890/ISTOCK

Suit Up!

1. Michael randomly selected 10 playing cards from a standard deck of 52 and made the following observations about his set of 10 cards:

- From the 10 cards, 7.4 is the mean of the values.
- From the 10 cards, 8 is the median of the values.
- The mode suit is diamonds.
- The probability is .2 of randomly selecting a spade.
- The probability is .3 of randomly selecting a club or a 10.
- The probability is $\frac{1}{3}$ of randomly selecting a 3 from among the hearts.

Assume the following values: 1 for ace, 11 for jack, 12 for queen, and 13 for king. What could Michael's 10 cards have been?

--	--	--	--	--	--	--	--	--	--

2. Create 2 more sets that meet the same conditions as Michael's original set of 10 cards. Examine the 3 sets.
- (a) How are they alike?
 - (b) How are they different?
 - (c) From your analysis, can you create a 4th set that will meet all the conditions more easily than before?

We encourage classroom teachers to pose this problem to your students and share their creative solutions. Please include a brief analysis of the specific strategy; examples of original students' work or high-quality digital images; and your name, the school name and address, and your e-mail address. E-mail submissions to **Sherry L. Bair** at slbair@ilstu.edu, or send to her at Illinois State University, Campus Box 4520, Normal, IL 61790-4520, by **February 15, 2013**. Published solutions will be credited.

BETTER TEACHERS LOVE MATH (EVEN WHEN THEY DON'T)

LESLEY
UNIVERSITY

It's easy to be passionate about your favorite subjects, but how do you inspire students to love math when you don't?

That's why teachers turn to Lesley University. Our online programs help elementary and middle school teachers master mathematics while building skills that have an immediate impact in the classroom.

Online M.Ed. in Mathematics
Online M.Ed. in Effective Teaching – Mathematics
Online M.Ed. – Individually Designed Program – Mathematics
Online Advanced Professional Certificate in Mathematics

Learn more about the innovative online programs at Lesley, including the M.Ed. in Mathematics and our new Master of Education in Effective Teaching.
