Preface	v
Chapter 1: General Information on U.S. Education	1
Overall Organization of Education in the United States	1
Movement of U.S. Students through K–12 Education.....	1
Movement of U.S. Students through Postsecondary Education.....	3
The U.S. Education Enterprise	4
Admission to Postsecondary Institutions.....	6
The Every Student Succeeds Act of 2015	7
Chapter 2: The Intended Curriculum in an Age of Standards	10
1980 to 1989: Preparing for Change through Standards.....	11
1990 to 2009: Adopting, Expanding, and Implementing the Standards	15
2010 and Beyond: CCSSM and Its Impact.....	19
Changes in States’ Secondary School Graduation Requirements in the CCSSM Era.....	24
State Standards and Textbook Adoption Processes.....	25
College-Level Curricular Documents	26
Chapter 3: The Implemented Curriculum	30
The Impact of NCLB, ESSA, and CCSSM on the Implemented Curriculum	30
Mathematics Materials in Elementary Schools (K–Grade 5).....	31
Mathematics Materials in Middle or Junior High Schools (Grades 6–8).....	32
Mathematics Materials in Senior High Schools (Grades 9–12).....	33
The Use of Digital Media in the K–12 Classroom	34
Coursework and Pedagogical Patterns in K–Grade 12 Mathematics	35
Mathematics Study at the Postsecondary Level	38
Changes in the Number of Baccalaureate Degrees in Mathematics	41
Chapter 4: The Attained Curriculum	42
The National Assessment of Educational Progress (NAEP).....	42
Main and State NAEP	43
Changes in NAEP Frameworks for Grades 4 and 8 Mathematics for 2010–15.....	43
Executive Summary for NAEP 2015 Grade 4 and Grade 8 Results	44
NAEP 2015 Grade 4 Results	44
NAEP 2015 Grade 8 Results.....	48
NAEP 2015 Grade 12 Results.....	52

Contents—Continued

NAEP 2015 Trial Urban District Assessment (TUDA)	53
NAEP 2012 Long-Term Trend Assessment Study.	55
State NAEP 2012 Results	57
Consortia for the Assessment of Common Core–Related Achievement	60
College Entrance Examinations	61
 Chapter 5: U.S. Participation in International Studies of Mathematics: Achievement and Context	67
International Association for the Evaluation of Educational Achievement Studies	67
TIMSS 2011	68
OECD Programme for International Student Assessment Studies	72
PISA 2012	73
U.S. Gains from the TIMSS and PISA Assessments	81
 Chapter 6: Implementing and Assessing the Common Core State Standards	87
Resources for Interpretation and Implementation of the Common Core	88
Common Core Resources Developed by the National Council of Teachers of Mathematics	89
Common Core Resources Available through the Institute for Mathematics & Education at the University of Arizona	91
Additional Resources for Interpreting and Implementing the Common Core	93
Resources to Support Access and Equity in Implementing the Common Core	93
 Chapter 7: Changes Surrounding the Teaching of Mathematics	96
The Emergence of Charter, Home, and Private Schools	96
Teacher Education and Its Continuing Role in the Education of Teachers	103
Educating Teachers to Teach Statistics	107
 Chapter 8: Programs for Special Populations of Students	110
Advanced Placement Programs	110
Special Schools and Programs for Students in Mathematics	115
Mathematics Competitions for K–12 Students	117
Mathematics Competitions for Undergraduate Students	120
 Chapter 9: Resources	122
Professional Organizations in Mathematics Education	122
Textbook and Electronic Media Publishers, K–Grade 12	124
 Bibliography	126
