Introduction: An Invitation to Turn Around 1

Why Strengths-Based Instruction? 2

Who Is Strengths-Based Mathematics

Teaching For? 3

What Are Mathematics Strengths We See
in Students? 7

Exploring Your Own Math Identity 10

Moving to a Strengths-Based Perspective 11

Practices That Build a Strengths-Based Cycle 14

The Five Teaching Turnarounds 17

TEACHING TURNAROUND ONE: IDENTIFY YOUR TEACHING STRENGTHS 22

1. Identify Your Teaching Strengths 23

What Do You Believe About Your Students'
Learning? 26

What Do Students Think You Believe? 31

Summary 35

TEACHING TURNAROUND TWO: DISCOVER AND LEVERAGE YOUR STUDENTS' MATHEMATICAL STRENGTHS 38

2. Turn Around Mathematical Proficiencies, Processes, and Practices 39

Building Mathematical Proficiency Through
a Strengths-Based Lens 40

Building Mathematical Practices and Dispositions
Through a Strengths-Based Lens 45

Building Strengths in Problem Solving 46

Building Strengths in Communication 50

Building Strengths in Reasoning and Proof 51

<i>Building Strengths in Connections</i>	53
<i>Building Strengths in Representations</i>	56
Summary	60

3. Your Students' Mathematics Content Strengths 61

Building Mathematical Content Knowledge Through a Strengths-Based Lens	62
Building and Recognizing Strengths in the Meaning of Number and Operations and Algebraic Thinking	63
<i>Count to Show How Numbers Represent Quantity</i>	64
<i>Write Equations to Represent Word Problems</i>	65
<i>Develop Strategies to Add, Subtract, Multiply, and Divide</i>	69
Building and Recognizing Strengths in Understanding Number and Operations: Fractions	74
Building and Recognizing Strengths in Geometry	78
<i>van Hiele's Geometric Conceptual Understanding Level 0: Visualization</i>	79
<i>van Hiele's Geometric Conceptual Understanding Level 1: Analysis</i>	88
Summary	90

TEACHING TURNAROUND THREE: DESIGN INSTRUCTION FROM A STRENGTHS-BASED PERSPECTIVE 92

4. Turn Around Grouping Practices 93

Planning Effective Strengths-Based Instruction	94
Fixed Versus Flexible Grouping Practices	101
<i>Long-Term Whole-Class Ability Grouping</i>	101
<i>Small-Group In-Class Ability Grouping</i>	103
<i>Flexible Grouping Strategies</i>	104
Strengths-Based Flexible Grouping Practices	104
<i>Mixed-Strength Whole-Group Instruction</i>	104
<i>Homogeneous-Strength Small Groups</i>	111
<i>Targeted Small-Group Instruction Through a Strengths-Based Lens</i>	113
Summary	120

5. Turn Around Tasks 121

High Cognitive Tasks	122
Turn Around a Task: Designing a Personalized, Strengths-Based Instructional Task	127
<i>Individualized Personalization</i>	132
<i>Funds of Knowledge</i>	135

Three Perspectives for Adapting a Task to Support Students' Strengths	136
<i>Access and Equity</i>	137
<i>Mathematical Goals</i>	138
<i>Formative Assessment</i>	138
Promoting Strengths Through Parallel Tasks	139
Exploratory Discourse About Tasks	144
Math Amendments: Revising the Task Solution	146
Summary	147

6. Turn Around Feedback 148

The Importance of Feedback in a Strengths-Based Classroom	149
Teacher-to-Student Feedback From a Strengths Perspective	149
<i>Teacher-to-Student Feedback Loop</i>	152
<i>Elements of Teacher-to-Student Feedback</i>	155
Student-to-Teacher Feedback From a Strengths Perspective	163
<i>Prior to the Lesson</i>	163
<i>During the Lesson</i>	163
<i>Closing the Lesson</i>	164
Student-to-Student Feedback From a Strengths Perspective	165
Classroom-Based Formative Assessment and Feedback	167
<i>Observation</i>	170
<i>Interview</i>	171
<i>Show Me</i>	171
<i>Hinge Question</i>	172
<i>Exit Task</i>	173
Summary	175

TEACHING TURNAROUND FOUR: HELP STUDENTS DEVELOP THEIR POINTS OF POWER 176

7. Turn Around Students' Identities 177

Windows and Mirrors	179
<i>Our Teacher Mirror</i>	182
Translation Task	182
Don't Miss an Opportunity to Recognize a Student's Points of Power	184
Students' Productive Dispositions	188
Students Self-Analyze Their Strong Points	189
Summary	193

TEACHING TURNAROUND FIVE: PROMOTE STRENGTHS IN THE SCHOOL COMMUNITY 194

8. Turn Around Professional Learning Communities 195

Supporting Teachers' Strengths 195

The Appreciative Inquiry (AI) Framework 197

Whole-School Agreement 200

Summary 205

9. Turn Around Family Communication 209

Engaging Families in Strengths-Based Talk 212

Incorporating Family and Community Strengths 214

Working Together to Share Mathematical Ideas 216

Family Math Resources 220

Conferences With Family Members From a Strengths-Based
Perspective 225

Summary 226

Epilogue: Turn Around Reflection 227
