COREY WEBEL, webelcm@missouri.edu, and **SAMUEL OTTEN**, ottensa@missouri.edu, are colleagues at the University of Missouri in Columbia. Weibel is interested in supporting teachers in making improvements to their mathematics instruction through investigating their own teaching. Otten studies student participation in mathematical practices at the middle school and high school levels.

CALL FOR MANUSCRIPTS

Technology Tips

Which technologies enrich your teaching? Which motivate your students?

- // Do you have a great way to use technology in your classroom? **Tell us how!**
- // Perhaps you have some reflections on technology that you would like to share. **What should we be thinking about?**
- // Or perhaps you have found an invaluable website that you have been using. **Share it!**

The editors of Technology Tips want to hear from you!

Write up the activity (including step-by-step directions) and then submit your manuscript by accessing **mt.submit.net**. Be sure to select Technology Tips in the Department/Calls field. No author identification should appear in the text of the manuscript. Additional guidelines for preparation of manuscripts can be found at **www.nctm.org/mtcalls**.
