

THANKS FROM THE editorial panel

The success of *Mathematics Teacher* is very much dependent on the volunteer efforts of many mathematics educators. Those who serve as department editors, manuscript referees, and publications and courseware reviewers include high school mathematics teachers, curriculum design-

ers, college and university mathematicians, and teacher educators. Their contributions are deeply appreciated.

The names of referees and reviewers on this list reflect those individuals who have reviewed manuscripts in the eighteen months before December 31, 2015.
