

thanks from the editorial panel

In spring 2015, Robert Klein and Robert McDonald completed their terms as members of the *MTMS* Editorial Panel. Klein generously served as chair this past year. He worked hard, along with McDonald, to bring readers the February 2015 Focus Issue titled “Mathematical Modeling,” which was overwhelmingly popular. Their contributions, insights, and dedication have been invaluable.

The departments in *MTMS* are always well received by readers, for which much of the credit goes to the dedicated department editors. The role of editor often involves more than editing the work that comes in from outside sources; in many instances, it involves recruiting writers or even writing the material. We wish to recognize David Spangler and Katie Hendrickson, coeditors of the popular Cartoon

Corner, as well as Asli Özgün-Koca, who worked on Mathematical Explorations with Rose Moore. Joel Amidon and Matt Roscoe provided variety each month in the Palette of Problems; Sherry Bair and Jo Ann Cady ably shepherded both the Solve It and Solve It Student Thinking; and Amy Ellis and Despina Stylianou expertly steered Informing Practice. We also appreciate Nina Sudnick and Jessica Cohen, who brought Quick Reads to fruition. We publicly wish to note our great appreciation for Fred Dillon, who filled a position on the Editorial Panel while steering the Math for Real department with Kevin Dykema.

The dedication of time and expertise by these generous NCTM members is greatly appreciated.
