

Wanted:

Great Classroom Activities

MTMS is searching for classroom-tested Mathematical Explorations that are ready for teachers to use with middle school mathematics students. Share your favorite activity today!

Submissions should include the following:

- A description of the classroom-tested exploration, including goals or objectives
- Reproducible activity sheets for grades 5–9 students (one or more grades, as appropriate)
- Notes for the teacher, including a suggested launch, guidelines, and questions

If appropriate, include this additional information:

- Examples of (and ideas for dealing with) difficulties that students have encountered
- Suggestions for assessing student learning
- Ideas for extensions
- A related activity for follow-up family use at home

Send an electronic copy of your activity to **[http://mtms@nctm.org](mailto:mtms@nctm.org)**. If accepted, activities will appear in the Mathematical Explorations department of *MTMS*.
