

# thanks from the editorial panel

In spring 2016, Rebecca Damas and Christine Avila completed their terms as members of the *MTMS* Editorial Panel. Damas generously served as chair this past year. Both Damas and Avila worked to bring readers the February 2016 Focus Issue titled “Probability and Statistics.” We also want to recognize Nina Sudnick for her service on the Panel this year. Together, their contributions, insights, and dedication have been invaluable.

The departments in *MTMS* are always well received by readers, for which much of the credit goes to the dedicated department editors. The role of editor often involves more than editing the work that comes in from outside sources; in many instances, it involves recruiting writers and sometimes writing the material. We wish to recognize David Spangler, Katie Hendrickson, and Hoyun Cho, who are

co-editors of the popular Cartoon Corner, as well as Asli Özgün-Koca and Marilyn Howard, who worked on Mathematical Explorations. Matt Roscoe and Stephan Pelikan provided variety each month in the Palette of Problems; Sherry Bair and Jo Ann Cady ably shepherded Solve It Student Thinking and Cady and Pamela Wells provided problems for Solve It. Despina Stylianou and Jennifer Eli expertly steered Informing Practice. We also appreciate the work of Jessica Cohen and Alessandra King, who brought Quick Reads to fruition. We thank Kevin Dykema and Crystal Kalinec-Craig for navigating real-life mathematics to produce the Math for Real department.

The dedication of time and expertise by these generous NCTM members is greatly appreciated.
