

thanks from the editorial panel

In spring 2016, Anthony Fernandes, Natasha Murray, and Terrence Wyberg completed their terms as members of the *MTMS* Editorial Panel. Murray generously served as chair this past year. Fernandes, Murray, and Wyberg worked to bring readers the February 2017 Focus Issue titled “Assessing Student Understanding.” Together, their contributions, insights, and dedication have been invaluable.

The departments in *MTMS* are always well received by readers, for which much of the credit goes to the dedicated department editors. The role of editor often involves more than editing the work that comes in from outside sources; in many instances, it involves recruiting writers and sometimes writing the material. We wish to recognize Hoyun Cho, David Spangler, and Katie Hendrickson, who are co-editors of the popular Cartoon

Corner, as well as Asli Özgün-Koca, Marilyn Howard, and Christine Kincaid Dewey who worked on Mathematical Explorations. Stephan Pelikan, Anna F. DeJarnette, and Stephen Phelps provided variety each month in the Palette of Problems; Jo Ann Cady and Pamela J. Wells ably shepherded Solve It Student Thinking and Annie Perkins and Pamela J. Wells provided problems for Solve It. Jennifer Eli, Despina Stylianou, and George J. Roy expertly steered Informing Practice. We also appreciate Alessandra King and Julie Amador, who brought Quick Reads to fruition. We thank Crystal Kalinec-Craig and Fanny Sosenke for navigating real-life mathematics to produce the Math for Real department.

The dedication of time and expertise by these generous NCTM members is greatly appreciated.
