

Appreciation for our volunteers

 **Teaching Children Mathematics (TCM)** would not exist without the voluntary efforts of many mathematics educators. This journal benefits from the experience of those who have served as department editors, reviewers, and referees as well as members of the *TCM* Editorial Panel.

TCM Editorial Panel members are appointed by the president of the National Council of Teachers of Mathematics (NCTM) and are approved by the Board of Directors. In April 2015, **Andrew Tyminski** and **Lisa Englard** completed their terms on the *TCM* Editorial Panel. **Wendy Bray** deserves special commendation for her leadership as the Panel chair from May 2014–April 2015. **Bray, Englard, and Tyminski** are serving as editors of the October 2015 Focus Issue, titled “Between the Wholes: Promoting Fraction and Decimal Understanding.”

In January 2014, we debuted “Math Tasks to Talk About” (www.nctm.org/TCMblog/MathTasks) an NCTM-hosted blog that features a variety of cognitively demanding tasks for pre-K–grade 6 students. This blog would not have been possible without contributions from our 2014 guest bloggers:

Angela T. Barlow	Gina Garza-Kling
Jennifer M. Bay-Williams	Thomas E. Hodges
Ralph Connelly	Malisa Johnson
Barbara J. Dougherty	Karen S. Karp
Sarah B. Bush	Marian Small
Kyrsten Fandrich	Jane M. Wilburne

The importance of department editors to the quality of this journal is impossible to overstate. **Sandra M. Linder** and **Julie B. Smart** led the Math by the Month department. In Problem Solvers, **Ed Enns** posed challenging new problems each month. **Erin Moss** and **Signe E. Kastberg** insightfully reviewed solutions to previously published problems. The *iSTEM* department (Integrating Science, Technology, and Engineering in Mathematics) benefited from the leadership of **Terri L. Kurz**

and **Jorge Garcia**. **Martha Hildebrandt** and **Cathery Yeh** skillfully led the popular Post-script department.

Each article that appears in *TCM* is judged (i.e., peer reviewed) for content and style by at least three referees. Additionally, volunteer reviewers agree to evaluate books and other instructional materials for the journal. These volunteers serve open-ended terms. The names of people serving as referees and reviewers as of December 1, 2014, appear on the following list. The effort of all these individuals in maintaining the quality and vitality of *Teaching Children Mathematics* is greatly appreciated.

You, too, can be part of this group. If you are interested in refereeing two or three manuscripts each year or reviewing instructional materials, visit www.nctm.org/tcm, click on Get Involved, and then follow the instructions for Referee or Review for NCTM.
