00:46:41 Laura Semian: all the time...
00:46:41 Caryn Albrecht: This year was especially challenging since everything happened SO suddenly and I never really felt like I knew what I was doing...
00:46:42 Fawn Nguyen : Luckily, my principal told me to take 2 weeks off

and call her back.

00:46:51 Melissa McDaniel: I have good days and bad days in the classroom. I think we all do. I'm in year 22 and I think this will always be true.

00:49:25 Fawn Nguyen : @Cindy Thank you!! I remind my students all the time that I'm awesome. :)

00:49:27 Nicole Walden: ditto

00:49:32 Gabriela Babcock: adults in children's lives prior to them starting math in school brainwash them into thinking math is impossible!

00:49:33 Dave Hankin: Love the links...

00:49:33 Linda Damianides: How can you teach math and work only 40

hours a week. That would mean you take NO work home.
00:49:37 W Gary Martin: 40 hours per day wouldn't be enough. :)
00:49:37 Stephenia Courtney: 40 hours on 3 days

00:52:23 Laura Semian: Since you took the time when it was most important
:)
00:52:23 Lydia Oladosu: one-on-one is powerful
00:52:30 Beth Kobett: Beautiful story!
00:52:34 Gary Skellington: These are the real things we teach
00:52:41 Linda Damianides: That's an excellent approach.
00:52:44 Laura Semian: true... it has to be real
00:52:45 Monica Dickerson: Making connections is the key.
00:52:46 Karen Aspenson: @Lydia ... yes!
00:52:47 W Tad Johnston: really great that you let her save face on the day
of the conversation and let her decide later
00:52:52 Linda Damianides: It's not just about the subject.
00:52:53 Nicole Walden: Brene Brown - vulnerable
00:53:00 Gary Skellington: Relationships is are craft

00:53:00 Lydia Oladosu: using calm voices does the magic sometimes

00:53:00 Valerie Vanderport: Thank you for your honesty.

00:53:05 Linda Koval: Yes, I have had conversations like that with my students because no one has ever told them that they can do math.

00:53:09 Gabriela Babcock: From last night's webinar.....CONNECTION IS FUNDAMNETAL TO ENGAGEMENT

00:53:15 Nicole Walden: craft - yes

00:53:21 Kara Miller: oh so true

00:53:22 Judy Radigan: Esther you are awesome!!! Thank you!!

00:53:25 Fawn Nguyen : But we SHOULD highlight these stories. Relationships are EVERYTHING. Lizzie will always remember the connection, the difference you'd made, you cared.

00:53:27 Catherine Abbott: How do your reach out when you have 35 (or more) students per class?

00:53:30 Cindy Bryant: Esther, Thank you for reaching out to Lizzie! YOU made a difference.

00:53:32 Laura Semian: NO! It's not upside down...

00:53:32 Linda Russo: I want to work with Esther

00:53:34 DENİZ ÇAKIR: Awesome

00:53:36 Yolanda Beavers-Campbell: Yolanda hi from AZ

00:53:38 Honey Sacro Swem: #limitless mind

00:53:42 Marissa Heitman: that is amazing

00:53:47 Trena Wilkerson: Start with brilliance!

00:53:52 Maria Padiernos: Actually, that is exactly how I communicate with my students...I approach them with wanting to know what is going on with them and how can we make learning happen for them!

00:53:52 Stephenia Courtney: AMAZING

00:53:53 Ulysses Cendejas: Teaching the word "YET" is powerful! "I don't get it" You don't get it yet!"

00:53:54 Claudia OKeefe: Thank you Esther! I needed this last week badly, but today is good too!

00:53:57 Denise Clarke: Amen to the truth

00:53:59 Gabriela Babcock: All our students should be seen as mathematicians :)

00:53:59 Beth Kobett: Yes! Begin with recognizing their Brilliance when they walk in the door!

00:54:02 Catherine Abbott: Yes...Limiiitless Mind, Jo Boaler.

00:54:03 Laura Semian: true... we definitely do it after they have proven themselves... many are afraid to try

00:54:08 Dawn Lopez: Great insight in 9 years

00:54:11 Linda Damianides: I did shave my legs for this. Never got the memo.

00:54:16 Nicole Walden: ask them to stay after school, ask them to come in during their free period, stop by when you see them outside of class

00:54:22 Tracey Jaehnert: I agree completely. Yes...Jo Boaler

00:54:25 Melissa Luzano: Lol @Linda

00:54:28 Kyle Johnson: Should I shave my legs now?

00:54:39 Catherine Abbott: @Linda....thank you. I appreciate your effort.

00:54:43 W Tad Johnston: which students -Look up "time banking" - focus your

00:55:39 Ma Emily Cadiz: Thank you
00:55:41 Valerie Hudson: Thank you!
00:55:42 Mary France Imperial: Thank you Fawn! That is awesome

00:55:43 Amy Johnson: wow, that was beautiful. thank you, Esther!!
00:55:44 Laura Cranmer: Esther you are worthy and wonderful teacher
00:55:46 Nell Thurlow: Thank you, appreciate it so much
00:55:46 Denise Minnich: Chicago Public Schools are so blessed to have you
as a teacher!
00:55:48 William Thill: Thanks Esther!
00:55:48 Dave Hankin: Thank you!

00:55:59 Julie Mainwaring: Thanks Esther!!

00:55:59 DENİZ ÇAKIR: the story is powerful
00:56:01 Justin Klinger: Thank You
00:56:02 Julie Gray: Thank you for sharing, Esther! That deep breath really helped me!
00:56:05 Jo Rolle: Thank you Ester for sharing.
00:56:06 Summer Cofer: Thank you, Esther
00:56:06 Kim Donker: Thank you Esther.
00:56:06 Wanda Showers: Powerful presentation!
00:56:07 India Puch: Thank you Ester!! very powerful
00:56:14 Laura Semian: Lizzie will always remember you, Ester
00:56:18 Imelda Valencia: For me the most important thing is to make connection, build trust with my students then eventually math will come in. Sometimes, we are busy putting or feeding information to our students. As teachers we also need to be concern of listening to them and finding what going on with them.
00:56:20 Joyce Meier: Thank you, Esther!
00:56:23 Eduardo Enjambre: Thank you Esther.
00:56:24 Joan Albers: Thank you, Esther! Your sharing meant a lot to me!
00:56:26 Saul Gonzalez: Thank you Esther. Will have to go back to re-watch!
00:56:31 Cheryl Gipson: Thanks Esther! I love beginning with worth statement.
00:56:35 Emerlina Binuya: Thank you Esther! I'm also one of those teachers that encountered the same problem.
00:56:36 Emily Kavanagh: Thanks Esther
00:56:38 Denise Clarke: Thank you, Ms. Song. This is long overdue. Many times it is not the student mindset we need to change, it is our mindset that we believe towards all kids, that we need to change.
00:56:43 Linda Koval: Yes, your students are lucky to have you.
00:56:44 Trena Wilkerson: Thank you Esther!
00:57:00 Pamela Liegl: Thanks Esther, I have had many of those conversations over my lifetime of teaching. Most are positive but a few were tough on me.
00:57:45 W Tad Johnston: Not all those conversations work, but all are worth trying
00:58:11 Cindy Bryant: @Tad agree.
00:58:22 Stephenia Courtney: All we can do is try and do the best we can!
00:58:22 Linda Damianides: We don't always see the results of the seeds we plant in students.
00:58:39 Gabriela Babcock: So true, Linda
00:59:19 Meridith Jackson: tracking!
00:59:23 Caryn Albrecht: Traditions of "discipline"
00:59:29 Caryn Albrecht: Yes, tracking!
00:59:30 Susan Danskin: tracking or ability grouping leads to inequity
00:59:40 Kara Miller: Accelerated and honors tracks
00:59:43 Toni Galassini: Ability grouping
00:59:43 Linda Russo: Yes tracking
00:59:44 Linda Damianides: Testing & placement
00:59:45 Judy Radigan: All teachers must use the book.
00:59:45 Rob Matyska: referring to students as "strugglers" or "honors"

00:59:46 Dave Hankin: unequal access to resources
 00:59:48 Laura Semian: tracking
 00:59:51 Erica Burnison: limited view of what it means to know and understand mathematics
 00:59:52 Lydia Oladosu: testing
 00:59:54 Judy Radigan: All teachers should not use the book.
 00:59:56 Erica Burnison: Answer driven
 00:59:58 Caryn Albrecht: We are definitely causing harm
 00:59:58 Laura Semian: forcing curriculum/timelines
 01:00:00 HILARY OMOKAFE: communicating.
 01:00:02 Fawn Nguyen : Giving perceived "challenging problems" only to select few.
 01:00:09 Nicole Walden: lack of tracking leads to inequity too
 01:00:09 Saul Gonzalez: Teacher tracking
 01:00:09 Judy Radigan: All math teachers teach the same way.
 01:00:17 Fawn Nguyen : @Saul Yes!
 01:00:22 Judy Radigan: All students sit in rows.
 01:00:22 W Tad Johnston: teaching by questioning with limited wait time and valuing correct answers the most highly
 01:00:25 Cindy Bryant: Best teachers always being assigned best students.
 01:00:27 Cheryl Gipson: Ability groups, outdated textbooks, limited exploration
 01:00:37 Linda Damianides: All math teachers teach the same way? Judy?
 01:00:46 Linda Damianides: Not true.
 01:00:47 Fawn Nguyen : Teacher tracking needs to be pointed out, not just student tracking, thank you @Saul for stating it.
 01:01:03 Laura Semian: success has a tendency to cure failure... the more success "low kids" can experience, the better
 01:01:13 Galaxy J2 Core: Yes. Teachers need to be positive.
 01:01:20 Viragni Chand: tracking
 01:01:22 Nicole Walden: laura - yes
 01:01:23 Catherine Abbott: Inequitable practice.....some students do not have strong access to the Internet; some families depend on school for daytime childcare; math classes are often tracked; rather than allowing time and content to stretch to fit students, we make students fit into boxes created by time and content.
 01:01:27 Linda Russo: YES!
 01:01:37 Fawn Nguyen : Homework
 01:01:44 Meridith Jackson: emphasis on performing calculations vs. modeling, finding patterns, etc
 01:01:44 Mohamed T: Respecting
 01:01:53 Melissa Luzano: Omg yes homework
 01:01:55 Mohamed T: Learners
 01:02:00 W Tad Johnston: homework - maybe single greatest source of inequity
 01:02:02 Linda Russo: The schedules ... Like my high schoolers who have to take care of younger children while trying to attend my zoom meeting
 01:02:11 Melissa McDaniel: homework.... some students have no one to help them. others have parents that have college degrees.
 01:02:17 Linda Damianides: We have to start with staff who understand oppressed communities.

01:02:21 Nicole Walden: I love the flexibility for me and for my students in online schooling

01:02:23 Linda Koval: Sometimes, students only cares about the answers and not the process.

01:02:31 Stephenia Courtney: ALL students must be afforded the same opportunity and respect.

01:02:31 Melissa Luzano: Strict due dates, allowing students to submit late work or make up work if their absence was "excused"

01:02:42 Laura Semian: the "you're so good with the bad kids" gets old... I guess it's supposed to be a compliment... but... c'mon

01:02:48 Erica Burnison: sometimes teachers only care about answers and not the proces

01:03:00 Linda Koval: Yes, Laura.

01:03:10 Tracey Jaehnert: Homework does not correlate to success.

01:03:13 Fawn Nguyen : We teachers still say "low kids" and "high kids."

01:03:22 Linda Koval: That is true, too, Erica.

01:03:24 Melissa McDaniel: it's sad but yes it is true , Erica.

01:03:26 Wanda Showers: @Laura agree- it's very old

01:03:27 Stephenia Courtney: Homework is useless if there is no one to help with homework.

01:03:31 Nicole Walden: Fawn - ouch - true

01:03:36 Erica Burnison: What we define as evidence of success

01:03:44 Meridith Jackson: @Fawn: or even 1s, 2s, 3s, and 4s

01:03:52 Catherine Abbott: @Linda....we should not penalize students whose parents have education. How can we support students whose families have great wisdom and experiences but do not have a college credentials?

01:03:54 Laura Olewinski: students no have the correct tools, such as internet access, graphing calculators, rulers, etc.

01:04:15 Cindy Bryant: Not fostering and conveying a growth mindset with students.

01:04:45 W Tad Johnston: tall order

01:04:46 Laura Semian: yes, agreed... need to appreciate their humanity

01:04:51 Nicole Walden: This is the sense that I lost.

01:04:59 Nicol Howard: So true - not an "us" vs "them".

01:05:04 Maria Dolores Estravez: It's also good to take into considerations the different factors that affect student learning or the lack of it.

01:05:07 Melissa Luzano: Believing that students would do better if they just "tried harder"

01:05:17 Jennifer Hahn: OMG love Dr. Gutierrez - heard her speak in a TODOS event and she was phenomenal!

01:05:18 Catherine Abbott: Many of my students were watching younger siblings and could not attend class during the day. They caught up at night.

01:05:18 Linda Damianides: All of this points to how important it is that we understand who our students are, to connect with the them.

01:05:30 Sheila Bishop: YES!

01:05:34 Caryn Albrecht: Oh my goodness! Yes all of these!

01:05:35 Erica Burnison: how do we recognize the brilliance of those whose voices don't sound like ours

01:05:35 Linda Koval: YES!

01:05:41 Denise Minnich: Agree

01:05:43 Trena Wilkerson: How can we move from 'lack of' to 'abundance of'?

01:05:43 Stephenia Courtney: 2

01:05:44 Ma Emily Cadiz: I agree with you

01:05:46 Kyle Johnson: Agreed!!!

01:05:59 Linda Russo: this is validating

01:05:59 Hilary Kreisberg : This slide is powerful!

01:06:01 W Tad Johnston: took a picture of this slide

01:06:05 Laura Semian: yes to #3!!!

01:06:22 HILARY OMOKAFE: Wish we could have a math WhatsApp group for virtual buddie chat.

01:06:23 megan burton: What a powerful connection of considering how students may be experiencing this as well! Wow!

01:06:27 Gricelda Monroy: #4 - I can feel the weight of that :(

01:06:29 Claudia Cooper: YES MAAM! ALL 4

01:06:36 Caryn Albrecht: I agree Megan!

01:06:38 Dawn Lopez: Excellent- all 4!!

01:06:44 W Tad Johnston: seems like #4 is the only one I can change

01:06:53 Kara Miller: Yes to all 4!!!! We don't even have back to school plans yet...

01:06:53 HILARY OMOKAFE: Communicating without boundaries...

01:06:59 Catherine Abbott: Unions help with this lack of "teacher" agency. Many voices together are much harder to ignore.

01:07:02 Emerlina Binuya: yes! I feel you.

01:07:12 Mary France Imperial: yes #4

01:07:15 Rodney Cooper: You never know the stability you have until life changes

01:07:22 Hilary Kreisberg : Well said, Rodney!

01:07:23 Laura Semian: lol@ bandwidth strong enough? ;)

01:07:24 Linda Koval: It was only when school "ended", I realized that I was depressed during closure. Then the NCTM leadership conference hit it right on the nose. I was going through the grief process.

01:07:24 Caryn Albrecht: Dealing with new technology and tools I wasn't familiar with... I know that was true for my students too

01:07:26 Nell Thurlow: Agree unions help

01:07:28 Nicol Howard: Whew! Telling a part of my story...

01:07:29 Tracey Jaehnert: Thinking of creating meaningful math experiences is more important then thinking about traditional "lessons". Math should not be thought of as building on "lessons". It is about building confidence and strength through experiences with one another.

01:07:35 Cindy Bryant: @Rodney, so very true!

01:07:36 Catherine Abbott: @Rodney....yes

01:07:59 Marilyn Ellis: Our principal made our goal for the year...reconnecting with staff, students, community.

01:08:04 Harjeet Kaur Ubbi: It's so true

01:08:11 Fawn Nguyen : @Linda Hope it's been better. <3

01:08:17 W Tad Johnston: yes, all 4 for students too

01:08:19 Trena Wilkerson: Connection and reconnection is essential!

01:08:23 Judy Radigan: What does @Rodney mean?

01:08:28 Catherine Abbott: Great Slide!

01:08:30 Nell Thurlow: Yes student have least amount of recognition and autonomy in this system

01:08:54 Beth Kobett: Love this! Mattering is essential!

01:09:03 Tracey Jaehnert: Great slide!

01:09:05 Rob Matyska: YES, and that school becomes a place of HOME for students, particularly those BIPOC students in our care

01:09:11 Julie Mainwaring: Took a pic of this!

01:09:12 Stephenia Courtney: They need these NOW more than ever!

01:09:20 Laura Semian: yes... students need to feel valued...

01:09:24 Erica McCord: I took a pic of this too

01:09:40 Judy Radigan: Me too!

01:09:45 Melissa Luzano: It's frustrating that many people who'd probably be a lot more careful are demanding F2F instruction bc someone with power demanded that schools open up completely.

01:09:49 Dave Hankin: Another great slide!

01:09:49 Linda Damianides: This is SO important!

01:10:00 Laura Semian: yes... and we need to understand that sometimes they're so lost? They don't even know what to ask... when to us? it's so obvious...

01:10:03 Catherine Abbott: Great phrase "Victorious Rights of a Learner"....is that a quote or book title

01:10:04 Cheryl Gipson: I love flexibility is in the middle.

01:10:38 Stephenia Courtney: We as educators need these things too!

01:10:54 Fawn Nguyen : So important. If I may say that teachers also need these from their admins.

01:10:58 Beth Kobett: YES!!! Strengths-Based Lens PLEASE! How can we lift up their strengths!

01:11:09 Emily Kavanagh: I agree with all of this

01:11:23 India Puch: Excellent points!!

01:11:25 Kara Miller: Exactly! So true!

01:11:26 Laura Semian: yes... hope for the best... rather than "why are you late?" need to shoot for "so glad you made it"

01:11:29 Cindy Bryant: Strength-based lens indeed, @ Beth!

01:11:31 Imelda Valencia: Hi Emily,

01:11:46 Sheila Kirton-Robbins: @stephanie - yes educator need this too

01:11:51 Linda Damianides: It's also less stressful to the teacher to not jump to a negative conclusion if a student does not meet our expectations. We don't know what's going on in each child's life.

01:11:54 Catherine Abbott: .Asset-based lens....assume positive intent.

01:11:57 Dee Crowell: She is making lots of great points.'

01:12:09 Catherine Abbott: Integrate

01:12:30 Imelda Valencia: These are al true. We have a lot to think about and consider

01:12:35 Linda Damianides: I LOVE the idea of co-creating classroom norms while online!

01:12:37 Yolanda Beavers-Campbell: Kindergarten teacher looking at more ice breaker questions to engage and to relax students

01:12:53 Erica McCord: Taking a picture of this too

01:12:59 Laura Semian: Thank you, Naomi! Very good points

01:13:08 Gabriela Babcock: does anyone know what a hybrid model looks like? While a few kids are in the classroom, those who are home do what? Are they connecting online and participate during that period?

01:13:10 Laura Semian: yes, make the best of what you DO have...

01:13:23 Erica McCord: Great ideas

01:13:26 Nell Thurlow: Yes carceral

01:13:34 Caryn Albrecht: Dr. Jessup, these are very helpful to me and I'll extend to my students also... Thanks SO much!

01:13:40 Linda Damianides: HYBRID: In my district, they plan to live-stream to the students at home.

01:13:47 Dawn Lopez: Administrators need this webinar

01:13:48 Catherine Abbott: Policing bodies.....this is mandated by our system....how can we establish different norms.

01:13:49 Melissa Luzano: Participation - these should apply even after the pandemic ends!

01:13:51 Beth Kobett: This is fantastic!

01:13:57 Nell Thurlow: we need to help students to flourish

01:13:57 Linda Damianides: Yes Dawn!

01:14:03 Linda Damianides: Administrators need this!

01:14:07 Sheila Kirton-Robbins: @Gabriela hybrid model is 50% onsite, 50% remote smaller class sizes, social distancing, etc.

01:14:19 Linda Koval: Many of my students have younger siblings that they need to watch.

01:14:44 Gabriela Babcock: Thanks, Sheila. So a teacher is teaching both in person and online at the same time?

01:14:48 Linda Damianides: Naomi, thank you for these ideas.

01:14:52 Laura Semian: yes... access is definitely something to always keep in mind

01:14:59 Kara Miller: How do we address the policing of student attendance/participation when it is mandated by administration?

01:15:01 Iesha Costanzo: Awesome info, thank you!

01:15:02 Linda Koval: Yes, that is very important about access to resources.

01:15:04 Imelda Valencia: And also, how can we cater our students with special needs?

01:15:04 Dawn Lopez: I had students in a day care (during COVID) and did not have their laptop or privacy to attend zoom lessons

01:15:18 Linda Koval: Thank you so much, Miss Naomi!

01:15:23 Catherine Abbott: Yes...just because the school provides devices....not ALL students have consistent, reliable internet connections.

01:15:42 Nicol Howard: @Gabriela, hybrid is all students are either online or all are offline. You toggle between the two throughout the semester/academic year. HyFlex means you spilt the class and some are online, when others are offline during the same time frame. Hope this helps a bit.

01:15:50 Jeanetta Glass: What does the acronym TODOS mean?

01:16:12 Nicol Howard: Thanks, Dr. Jessup!! Powerful!!

01:16:13 Fawn Nguyen : Thank you so much, Naomi.

01:16:13 Monica Dickerson: Thank you for the various resources!

01:16:19 Linda Russo: Awesome thanks

01:16:27 Maria Dolores Estravez: Thank you very much, Naomi!
01:16:28 Dellaresse Finlay: Very informative. Thank you!
01:16:29 Dave Hankin: Thank you..... amazing stuff!
01:16:29 Trena Wilkerson: Thank you Naomi for these great insights,
ideas and reminders.
01:16:30 Cindy Bryant: Appreciate you sharing Naomi!
01:16:30 Gabriela Babcock: It does, we haven't heard anything from our
admins. Thanks so much Nicol
01:16:31 Denise Minnich: Thank you so much!
01:16:31 Jennifer Wolfe: Thank you for continuing to push our thinking and
growing in our practice! Love to you friend!

01:16:31 Mary France Imperial: Thank you Dr. Jessup
01:16:32 Laura Semian: thank you
01:16:32 Kim Donker: That was fabulous. Thank you!
01:16:34 Susan Troutman: Thanks!
01:16:36 India Puch: Thank you so much. You got me thinking because we
go back mid August!!
01:16:37 Joan Albers: Thank you!
01:16:38 Tracey Jaehnert: Thank you. Very good thoughts and insight

01:16:56 Linda Damianides: Felt like self care listening to you,

Naomi!

01:16:58 Nicol Howard: Welcome, @Gabriela. :-)

01:17:02 Melissa Luzano: We can start by considering everything students do not have control over and removing policies (esp grading policies) that penalize them for those things.

01:17:04 DENİZ ÇAKIR: thank you!

01:17:06 Nora Marasigan: Thank you!

01:17:07 Trena Wilkerson: <https://www.todos-math.org/>

01:17:08 Melissa Luzano: Thank you!

01:17:08 Yolanda Beavers-Campbell: We are not alone, glad and thanks to all providing feedback

01:17:13 Lesly Brown: Excellent Presentation. Thank you!

01:17:13 Claudia Cooper: Yes help me with parents PLEASE!!!!

01:17:21 Nicol Howard: Yes, @Linda!! I agree.

01:17:21 Ma Emily Cadiz: Ma Emily Cadiz , thank you ! It is very informative.

01:17:21 Joyce Meier: Thank you!

01:17:33 Nicole Walden: The letters don

01:17:42 Emily Kavanagh: Great presentation

01:17:55 Nicole Walden: The letters don't stand for something individually - it means everyone

01:17:56 Claudia Cooper: Im so over hearing how they are working and its too much fot them

01:17:57 Carolyn White: Thank you Naomi. It was great,

01:18:21 Carolyn White: Hi Susan Troutman.

01:18:33 Beth Kobett: That was incredible.

01:19:30 Olga Kosheleva: Thank you!

01:19:53 Laura Semian: yes, and embarrassment is not a welcome feeling

01:20:12 Imelda Valencia: These are the same words I heard from my parents

01:20:16 Linda Damianides: YES!

01:20:21 Galaxy J2 Core: Excellent presentation. Thank you.

01:20:43 Cindy Bryant: Interesting perspective re what parents mean.

01:20:44 April Kenney: Thank you so much!!

01:20:44 Edith Bardoquillo: Thank you for sharing these.

01:20:59 Nicole Walden: bullseye

01:21:02 Laura Semian: yes, there is major lack of confidence with "new math" esp. in the lower grades

01:21:12 Stepheia Courtney: All of these feelings often get directed towards the teachers ESPECIALLY during on-line learning!

01:21:17 Linda Damianides: I ask parents to provide structure to learn and not necessarily have to help with the actual math.

01:21:18 Maria Dolores Estravez: Asset-based

01:21:23 Ruth Wilson: essential

01:21:26 Ulysses Cendejas: I think my greatest challenge of communication with parents is the language barrier

01:21:28 Linda Koval: Sometimes, the parents need to let their students struggle.

01:21:32 Maria Dolores Estravez: They have to be there to support their children.

01:21:38 Laura Semian: the "I was never good at math, either" is a biggie
01:21:56 Linda Koval: Yes, supporting their children is extremely important.
01:22:13 Caryn Albrecht: Parents who are working have an increased level of stress about how to support their children...
01:22:16 Wanda Showers: @Laura agree
01:22:19 Rodney Cooper: FEAR is REAL and unfortunately MATH invokes FEAR
01:22:38 Linda Koval: Well said, Rodney!
01:22:56 Joan Albers: Agree with Linda. I have too many "swoop" parents who want to know the answer, not allow struggle
01:22:59 Laura Semian: students + parents + teachers = success--- kind of cheesy, but true
01:23:04 Gabriela Babcock: Ulysses, have you tried the translate feature of gmail? It works great with parents who's first language is not English
01:23:16 Claudia Cooper: parents just need to make sure their kids are participating
01:23:20 Stephenia Courtney: FEAR often leads to FAILURE
01:23:33 Laura Semian: yes, parents will be BOMBARDED with emails
01:23:40 Maria Dolores Estravez: @ Laura Agree! We all should be in this together.
01:23:43 Dave Hankin: As always, we will need clear direction from admin...
01:23:48 Linda Koval: Sad, but true. Stephenia
01:23:59 Catherine Abbott: EXCELLENT POINT about OVER communication
01:24:07 Melissa Luzano: Tbh people complaining about "new math" frustrates me.
Since when was "old math" so great? And if it was, why did people freak out when I told them that my major was math or that I teach math? "You must be smart." "Why would you do that to yourself?" We rarely ever hear, "I love math!"
I'm working on being more understanding, though.
01:24:09 Ulysses Cendejas: talkingpts is a great communication apps to talk to parents
01:24:11 Denise Robider: Laura, may I steal your equation up there? I'd like to make a poster of it
01:24:12 Linda Damianides: At the middle school level (and up) I think one of the best things we can do is give parents permission to not have to help with the actual math. Help kids problem solve by coaching with where they can access information.
01:24:16 Fawn Nguyen : Check out Talking Points <https://talkingpts.org/> . You send text in English, parent receives in their home language, and they can text you back in same language, then you receive it in English
01:24:19 Dave Hankin: We all have ideas, but the guidance and policy info is essential.
01:24:20 Linda Koval: Parents won't respond to your email.
01:24:45 Laura Semian: yes, communication needs to be streamlined-
BIGTIME!!! short, sweet emails- one platform- parents are already overwhelmed
01:24:46 Ulysses Cendejas: @Fawn that is a great app. I used that the last month of school.
01:24:54 Ulysses Cendejas: I found it all late :(
01:25:02 Catherine Abbott: ANOTHER EXCELLENT POINT about

translation/interpretation to home language

01:25:05 Lesly Brown: My parents have been great to re-enforce at home what I have taught at school that day or virtually. We have about 90 percent on reduced or free lunch, but my parents want their kids to be able to do better academically and help us try.

01:25:33 Linda Damianides: GREAT idea.

01:25:34 W Tad Johnston: @Me - good point - needs to not be lose new math but support parents in understanding new math

01:25:44 Beth Kobett: Love this! Parents appreciate being heard!

01:25:44 Laura Semian: yes, parents want to feel heard, agreed 100%

01:25:49 Catherine Abbott: Is it PRACTICAL to CALL EACH FAMILY for 120 students.

01:25:54 Melanie Nan: so many great ideas

01:25:55 Beth Kobett: Fabulous presentation!

01:26:04 Stephenia Courtney: Educators advocate for their students and parents need to advocate for not only their students but for themselves as well!

01:26:13 Maria Dolores Estravez: @Catherine I've done that before

01:26:13 Sharon Black-MacKinnon: Thank you so much! Wonderful p

01:26:20 Linda Koval: Send postcards.

01:26:23 Sharon Black-MacKinnon: webinar

01:26:36 Stephenia Courtney: Education is a Team Effort!

01:26:37 Dave Hankin: I know I will be going back and watching this webinar again.....so much helpful info....

01:26:42 Laura Semian: it's better to be in contact on Monday (this is what we will be doing this week) rather than Friday? this is what we did...

01:26:44 Sheila Kirton-Robbins: @Catherine - calling 120 families is stressful. Break it into a few per day :)

01:26:51 W Tad Johnston: need to coordinate family calls too - hearing from 8 teachers a week could be too much in mS and HS

01:26:57 Wanda Showers: Me too Dave

01:27:08 Catherine Abbott: @Maria....my goal is to communicate by the end of September. We won't get our schedule until just before the students arrive.

01:27:21 Maria Dolores Estravez: @W Tad That's a great idea!

01:27:28 Linda Koval: Your cat is beautiful.

01:27:31 Laura Semian: I have found texting is a WAY more successful avenue than calling...

01:27:34 Karen Hyers: My cat is here too!

01:27:35 W Tad Johnston: Be careful with surveys - who is responding?

01:27:46 Ruth Wilson: never mind parent view but teacher not knowing what the district plan is, what they will be teaching or where...

01:27:47 Gabriela Babcock: 8 parent from ms and hs, but if they have multiple kids at home....

01:27:52 Dave Hankin: We had the first hour teachers make the initial contact with parents and act as the contact person for the other teachers.

01:27:56 DANIELLE ROTRAMEL: Remind is THE BEST app

01:28:06 Gabriela Babcock: Laura, I found the same, texting is best

01:28:07 Linda Koval: Sometimes, my students write their email as their parents' email.

01:28:10 Catherine Bronikowski: if HS has homeroom - you could coordinate parent calls through homeroom teachers for general updates

01:28:11 Laura Semian: Danielle, yes... remind is great
01:28:11 Alayna Wearly: could you please put the link in the chat area?
01:28:12 Trena Wilkerson: Thank you Hilary! Parents, families, caregivers are so important in the student's educational experiences. Collaboration and communication are essential.
01:28:13 Caryn Albrecht: Thank you Dr. Kreisberg! So important to work WITH parents.
01:28:14 Stephenia Courtney: focus on 1 class period per day
01:28:18 Sheila Kirton-Robbins: Does TODOS do certificates? I never got mine from the last session.
01:28:18 Beth Kobett: Fabulous!
01:28:19 Pamela Liegl: Thanks Hilary, great presentation.
