Lesly Brown: Hello from Tennessee and Lesly.
Elizabeth White: yes we have had exponential growth here in texas
Ramona Quintero: Thank you for all the information
Jere Confrey: We are showing a portion of Talib’s Mentor video, you can see the entire thing here: https://www.youtube.com/watch?v=a69y5E3Z1yI&feature=youtu.be
Catherine Abbott: We are not claiming that temperature causes more COVID cases?
Jere Confrey: no, only testing. LOL
Veronica Galbreath: LOL
Jere Confrey: they are asking you to expand to full size
Nicole Walden: temperature causes more testing?
Stephania Courtney: taking ownership
Elizabeth White: I believe by temperature, she meant the actual temperatures of human beings, not temperature as in weather... so there's a correlation (not necessarily causation) between higher temperatures/fevers, and the number of COVID cases
Jere Confrey: Organisation for Economic Co-operation and Development (OECD)

Mary Reyes: is my connection bad or is the seminar coming across
choppy?
00:39:15 Mary Reyes: nm it's me
00:39:16 Nicole Walden: choppy for me, too
00:39:20 Dawn Lopez: choppy
00:39:26 Nicole Menssen: Mine is clear.
00:39:31 Dave Hankin: Ok here
00:39:37 David Barnes: @Mary - All good here.
00:39:43 Tanya Landry: ok on my end
00:39:45 Ronald Lubatti: clear in Maine
00:39:56 Jere Confrey: sorry for the choppiness. its why I am not talking
as mine is unstable.
00:39:57 David Barnes: May be a regional problem.
00:40:15 Mark Phipps: Bottom of screen is cut off
00:40:38 Mark Phipps: But it shows okay if you go to side-by-side mode
00:40:48 Catherine Abbott: Have y'all seen the book Weapons of Math
Destruction: How Big Data Increases Inequality and Threatens Democracy
00:40:54 Ronald Lubatti: select fit to screen in options
00:41:02 Jere Confrey: Tyler Maloney is my son. He is my inspiration for
this whole project. He started Undercover Colors which worked on means to cut date
rape.
00:41:09 Jennifer Knudsen: yes v important book
00:41:33 Veronica Galbreath: Love it!
00:41:33 Karoulin Aljoris: nice idea
00:41:56 Aya Zvaigzne: The legal issues for food waste are considerable.
00:42:22 Bambie Evans: yes absolutely
00:42:23 Veronica Galbreath: Sports LOL
00:42:51 Catherine Abbott: Is this related to the U.S. Army's
e-Cybermision?
00:43:13 LA VERNE MITCHELL: Awesome challenges!
00:43:55 Catherine Abbott: Is food wasted if the food that is not eaten
is made useful is some other way?
00:44:04 David Barnes: Love the range of ideas!
00:44:09 Mary Reyes: so cool! now all I need is a job where I can apply
these
00:44:13 Cindy Bryant: Please change your chat setting to All panelists and
attendees so EVERYONE can see all of your posts! :-) .
00:44:22 Nicole Menssen: Yes! These are amazing challenges! SO exciting!
00:44:23 Stephenia Courtney: I love the process

00:44:41 Rachell Scott: Challenges that deal with mathematical concepts are
cool!
00:44:52 Melanie Weston: Great challenges
00:45:14 Emily Kavanagh: phubbing love it
Vandana Gupta: Awesome challenges
Jere Confrey: Thanks folks.
Sandra Davis: I can see the entire slide.
Zara Simpson: I was fine seeing it.
Catherine Abbott: How can we implement the Keep It Real Challenge in an online learning situation?
Lorie Huff: I can see it all.
Cindy Bryant: I can see your entire screen the whole time.
LA VERNE MITCHELL: the footnote is now readable.
Melanie Weston: I can see.
Jennifer Eaton: That is better.
Bertha Reyes-Pond: looks good.
Aya Zvaigzne: bottom is cut off.
Cary Winter: I can see everything.
Mark Phipps: side by side mode works really well.
Rachell Scott: I can see it.
Myra Absin: Good morning from Philippines.
Jere Confrey: Make sure to go to the top and use view options.
You may be able to adjust your screens.
David Barnes: If you can't see it all you might try to expand your window.
Daniel Irving: When someone types in the Q&A, the notification bar will sometimes block the bottom of the slides. All you need to do is click the Q&A icon (to mark notification as read) and that will resolve that issue (until another question/comment is posted in that dialogue box).
Daniel Irving: If that is the problem.
Jere Confrey: Thanks Daniel.
Daniel Irving: You are very welcome.
Jere Confrey: just drag it.
Jere Confrey: Thanks Portia.
LA VERNE MITCHELL: Will the powerpoint be available?
Jere Confrey: Yes.
LA VERNE MITCHELL: Thanks.
Jere Confrey: website is here too Interested in trying some out, let us know: https://go.ncsu.edu/design-and-pitch-signup.
Jere Confrey: all challenges available.
Jere Confrey: Larisa, we will make PPT available.
Jere Confrey: here they are...

00:53:54 Jere Confrey: NCTM will post the PPT
00:54:15 Erin Krupa: Yes, they will post the presentation and our handout.
00:54:24 Jere Confrey: It is so helpful to see kids learn how to decenter to business ideas
00:56:26 Jere Confrey: Technical Brief for Keep It Real:
00:57:31 Jennifer Knudsen: what does “decenter to business ideas” mean?
00:57:42 Erin Krupa: What does the hand raise mean?
00:57:55 Erin Krupa: Maybe accidental?
00:58:17 Jere Confrey: Jennifer, it means that they forget at first to think about the client and how to be sure the product works for them. That is decentering.
00:58:45 Jere Confrey: They are willing to ask their question verbally if we want.
00:59:52 Jennifer Knudsen: thanks!
01:00:09 Jere Confrey: you are welcome
01:01:10 Jayson Sentinellar: hi from Philippines
01:01:15 David Barnes: I'm in!
01:01:18 Nicole Menssen: This is SO COOL!!!!
01:01:42 Ma.Cecilia Cueva: hello..
01:01:43 Linda Pritchett: Awesome for the students
01:02:04 Jennifer Cronin: This makes learning relevant!!
01:02:07 Katherine Slomer: This is awesome :)
01:02:22 Jere Confrey: Glad you all like them. The challenges and the challenge champions are REALLY Cool We worked hard to find great folks for this.
01:02:29 Daniela Graham: This is awesome!
01:02:40 Douglas Breen: Are there some of the challenges that work better for "Foundational Math" (Tier 2 intervention) for middle school students?
01:02:40 Catherine Abbott: They only have one formal practice that is
only one day before their final pitch?
01:02:41 Daniela Graham: I am curious about the Math behind it
01:03:00 Portia Felder: This is soooooo AMAZING!! Thank you for making all of the resources accessible to us. I needed this map!
01:03:07 Veronica Galbreath: ;)
01:03:19 Stephenia Courtney: I LOVE this idea! Ownership, Relevancy, Critical Thinking, Exploration....
01:03:20 Aya Zvaigzne: My EL students would practice the pitching multiple times.
01:03:23 Maria Woehl: How much time do students spend on this?
01:03:26 Catherine Abbott: Do they ever discuss the privacy issues related to their apps?
01:03:42 Jere Confrey: The plan is for about a week.
01:03:49 Douglas Breen: Is there a way to maintain physical distance when working in groups?
01:03:50 Nicole Menssen: One week per challenge?
01:03:54 Jere Confrey: Mike will share an implementation plan at the end.
01:03:59 Nicole Menssen: Zoom breakouts...
01:04:08 Jere Confrey: Yes, but we have done online versions too
01:04:14 David Barnes: YES!
01:04:28 Susan Papert: Will the implementation plan be available from NCTM?
01:04:37 Stephenia Courtney: My school does not allow the use of Zoom!
01:04:46 Stephenia Courtney: school district
01:04:50 Veronica Galbreath: Holy cow!
01:04:53 Cary Winter: There are other options. Are you able to use Google Meets?
01:04:55 Veronica Galbreath: That's crazy
01:04:59 Susan Papert: You achieve breakout rooms in Google Meet - updates will be out later this month
01:05:02 Veronica Galbreath: Crazy
01:05:03 Linda Pritchett: It is great to see things from the students' view point.
01:05:35 Jennifer Cronin: My school does projects/workshops 2 days a week that usually run all year. Given the changes to our schedule, we will need to change how we do this—I am going to propose having students do one (or more!) of these challenges.
01:05:54 Jere Confrey: The implementation plan is in the PPT
01:06:03 Susan Papert: Thanks much!
01:06:07 peter zirnis: I just came from the TODOS Math webinar "Supporting the learning of all students by Working Smarter: A Framework for Math Teaching and Learning" Presented by Teruni Lamberg-----Unfortunately, their next 3 webinars are the same time NCTM webinars exist July 22, August 11 and August 18. I asked them to hopefully connect with your group as I want to view both and not choose which one to watch live. Can someone reach out to TODOS Mathematics for All group to hopefully fix the issue???
01:06:22 Jere Confrey: again here is the website for all of the challenge materials
01:06:25 Jere Confrey: https://go.ncsu.edu/design-and-pitch-signup
01:06:43 Catherine Abbott: Has anyone considers submitting this work to the Excellence Learning in Education (ELEDucation.org)?
Jennifer Cronin: Peter Zirnis—are those webinars free as well?

Stephania Courtney: Thank you! We are allowed to use Google.

Jere Confrey: Thanks Jennifer, we will check it out

Mark Phipps: There are recordings of these available

Gloria BrownBrooks: I did answer you Peter. All NCTM webinars are available in full online the next day and for the month or >

Ronald Lubatti: Nearpod would also work for breakouts rooms

Susan Papert: yes

Susan Papert: And Peardeck

Dave Hankin: and Zoom...

Ronald Lubatti: we cant use zoom, it collect data on students

Susan Papert: Nice! Good reference!

peter zirnis: yes those webinars are free as well --- they promoted a book which I am getting tired of paying all this money --- I just want simple strategies I can use to improve my teaching practice (I mentioned that sometimes these events turn into a selling point for presenters etc.)

Gloria BrownBrooks: This is very cognitive

Cheryl Tavernelli: do they actual create a real app?

Jere Confrey: All of this is available FREE

peter zirnis: thanks for the links in the chat box

Jennifer Cronin: Thanks Peter!

WARA SABON DOMINIKUS: great presentation

Susan Papert: oh...this is so good

Portia Felder: @Cheryl I had the same question but didn't want to ask LOL

Jere Confrey: The kids are the best... see the joke...

Jere Confrey: They phubbed each other

Maricar Sanchez: THANKS! This was an awesome presentation.

Susan Papert: @Portia - me too. LOL

Mark Phipps: anti-phubbing electrical shock app?

Myra Absin: Excellent.

Susan Papert: O.M.G.

Veronica Galbreath: This makes me miss my kids!

Stephania Courtney: I want those students!

Dave Hankin: Definitely pre-COVID...

Jere Confrey: Mikes point that the kids design for incentives rather than punishments. I love that

Mark Phipps: they are so cute

Erin Krupa: @Veronica me too! I miss Keeping It Real with my students.

Jere Confrey: We are running the competitions on line.

Susan Papert: Oooohhh - cool

Jere Confrey: I so agree and I am so impressed by our members who are tackling these difficult problems.

David Barnes: The shocking would be more acceptable if the phone vibrated before it shocked you.

Bertha Reyes-Pond: That was great!

Dave Hankin: Well-done!

Vandana Gupta: Very Nice.
peter zirnis: love getting these strategies for us to use once we get our kids back -- thanks for the explanation so far

Christy Rose: Fun

David Barnes: That was wonderful!

Susan Papert: This sounds like a REALLY good way to create community

Gloria Flores: Awesome

Linda Pritchett: Great Job!

Gloria BrownBrooks: That was really good!

Marie Saint Hilaire: awesome!

Catherine Abbott: Does Phubbing require detecting presence of others that you can ignore.

Jere Confrey: Unabashed ad. I wrote a children’s book, Love Without Hugs, for grandparents missing their kids. Self published on Amazon. Wrote it to help kids and donate funds for PPE.

Susan Papert: Oooh

Portia Felder: A couple of us wanted to know if the kids were making an actual app. Starting @7:45 PM

Cheryl Tavernelli: do they make an app, or do they just come up with the ideas of what it would do?

Jere Confrey: No they do not build it. would be great though. Some think they will pursue it

Deniz Çakır: very good!

Laura Cranmer: This is really cool

Jere Confrey: Portia, you are welcome

Catherine Abbott: What is the time frame for this project?

Jere Confrey: This is your slide Catherine

Catherine Abbott: I see ....like I cue’d it

Lorie Huff: Thank you! Great information and opportunities for students!

Linda Pritchett: google cs first is a great resource for this

Joanna Babbitt: What grade level were the students who pitched?

Nicole Menssen: YES!!!!

Jennifer Cronin: What did the T and S stand for in the last slide?

Jennifer Cronin: ?

Cary Winter: Teacher and Student

Susan Papert: T = Teacher, S = student

Jennifer Cronin: Thank you!

Cary Winter: You are welcome!!

Natalia Baker: T teacher and S student

Melody Sutton: This is awesome! Thank you!

Catherine Abbott: What prerequisites are needed for this activity?

peter zirnis: thank you so much for that

Nora Marasigan: Thank you so much!

Cary Winter: How do we sign up for the workshop?

WARA SABON DOMINIKUS: thanks for great sharing

Veronika O'Donnell: Thank you!
Ana Guerrero: Great!
Beth Kobett: Thank you so much! This was wonderful!
Catherine Abbott: Cool...more PD...no seriously. I'll be there.
Tessie Menta: Thank you
Nicole Menssen: Can you put the link in the chat?
Deniz Çakır: thank you :)
Daniel Irving: Thank you!
Nicole Menssen: Never mind. You already did...
Valentina Sorescu: Thank you!
Dawn Lopez: My school is becoming inquiry based and this is absolutely fantastic!
Trena Wilkerson: Fascinating opportunity for students to engage in opportunities to understand and critique their world and contribute to potential solutions!
Stephenia Courtney: AMAZING as usual!! Thank you SO much EVERYONE!!!!😊😊😊
Melonie Smith: Thank you; great presentation

Hi Jeff

Jere Confrey: Thanks

Peter Zirnis: thank you for offering all this help

Jayson Sentinellars: thank you! big help for us

Bertha Reyes-Pond: thank you!

Jere Confrey: Thank you to everyone for coming. Please stay safe and thanks so much for everything you do for our kids!!!!!!

Nora Chase: Thank You! Great stuff.

Abigail Santiago: Thank you!!

Deniz Çakır: thank you!

Arnold John Bulanadi: Thank you!
The certificate will be emailed tomorrow.

Thank you so much

Thank you this has been very helpful!

WAY COOL!

Thank you for taking the time to share these incredible resources with us, as well as for this wonderful presentation!

Thank you

Thank you!

thank you

Every project is fun and when kids do entrepreneurial activities, they go after the math with a vengeance. It is so cool!!

Thank you

We must ENGAGE OUR STUDENTS

This is a game changer! THANK YOU!!! SO Exciting!

Love these challenges!

Thank you!

Thank you for these resources!

Thank you!

Love it

I am challenged to be a better teacher!!!

Thank you!

Thank you so much!!

Thank you for all the information.

WONDERFUL!!

Thank you so much!

Thx

Thanks !

Thank you so much! Wonderful!

Thank you again from Globe, Arizona!

Thank you

Thank you for inspiring me for next year.

Thank you!

Is there an attendance sheet?

Fantastic!

Thank you great presentation!

These are amazing! Thank you for the session and the resources.

Thank you. Very timely topic. See you at the workshop.

Thank you for your time and effort
