00:36:54 Amanda Helgerson: that is helpful to get this advice from your
parent view
00:37:09 Patricia Daugherty: Appreciate the parent view
00:38:08 Mark Helton: Why might some of us not have the react button? I
had it on one meeting but not others
00:38:17 Mary Duden: I do not have reactions is that because my zoom is
only basic?
00:38:21 Monica Zaremba: Are all of these feedback tools available on the
basic, free version?
00:38:25 Debra Borman: I didn't see the reaction button.
00:38:29 Kristi Gettelman: Mark - that is something that the host sets
up
00:38:32 Ashley Satterthwaite: We have to enable the "reactions" feature
ourselves on our profile page
00:38:34 Eric Thomas: Thank you
00:38:49 Ashley Satterthwaite: It seems only the instructor can see those
reactions...
00:38:54 Rick Pearce: Click on "Participants" to get the thumbs up/down,

00:49:39 Adriene Marshall: +1 to use this space to build relationships and taking care of each other

00:58:16 Amy Albert: Agree about the last question

00:58:23 Samuel Zimmermann: very nice

00:58:30 Karen Elofson: One problem I have with Google Form quizzes is that when you release scores, students receive all the questions and answers in an email, so you have to make a different quiz every year.

00:58:55 Jerra Wood: Can the lock mode be set to allow a reader for EL students?

00:59:05 Jerra Wood: made

01:00:52 Carmen Watkins: Mine did that, I'm on a Mac, and it just minimized the window.

01:00:59 Beth Kobett: look behind the screen you are looking at. It is probably hidden behind. :)

01:01:05 Chonda Long: Do you see view options at the top

01:01:12 Jerra Wood: Mathematics: A Human Endeavour by Harold Jacobs

01:01:13 Chonda Long: you might be able to expand your screen using that

01:01:17 Katrina Garrett: If you select the "View options" tab at the top that should work.

01:01:18 Adriene Marshall: If a Mac, click on the zoom link on your doc.

01:01:21 Kristi Gettelman: Or maybe look at your taskbar... look for the video icon

01:01:28 Adriene Marshall: If a window, go to start and find it

01:13:56 Kesha Carter: Send the link again please
01:14:02 Vanessa Cerrahoglu: I've picked up some great tips for fostering a sense of community with learners online. Thank you. (Even is breakout rooms didn't work). I appreciate the structures you've shared.

01:15:34 Debra Borman: How do you lock down the grid paper?
01:16:04 Mary Duden: My conjecture is that there will be only one bounce. But I think it has to be the first multiple of the smaller dimension.
01:16:12 Albert Madrigal: Debra, you can probably create a master slide template to prevent students from clicking on the graph paper
01:16:13 Priscilla Galliano: What grade level do you suggest for this activity?
01:16:25 Mary Duden: If it's a square - no bounces.
01:16:54 Jodi Mills: Awesome task!
01:16:55 Clara Jurczak: I have done this activity with 7th graders. But I think it's great for 6th grade and up.

01:18:08 Janet Zintel: I'm wondering how much of our work will be synchronous with students this spring
01:18:13 Beth Kobett: Mike, you are truly modeling how to handle conundrums and pivot as needed. VERY IMPRESSIVE!
01:18:15 Timothy Kennedy: I love the type of conversations and thinking that these types of activities prompt with the students! The raging debates and logic behind their thought process is priceless.
01:18:28 Deborah Irwin: How do you get it to finish in the bottom right corner?
01:18:52 Jennifer Pajente: What is the end goal, to find the dimensions? Which corner is it supposed to go in?
01:18:55 Jennifer Brokofsky: Are the break out rooms only on the paid version?

01:18:57 Timothy Kennedy: Great challenge...is it possible to have that even happen?

01:19:10 Linda Rozman: teaching 3rd grade, how do I teach fractions online?

01:19:24 Mandy Biló: do you have to have a paid account to do breakout rooms?

01:19:36 Kristine: I love that question, I need to do it for 4th grade too Linda

01:19:39 kamethia Perez: what exactly are break out rooms? Are they the google slides?

01:19:40 Keisha Butler: Great question Linda!

01:19:44 Cassie Eatmon: For those who use Blackboard, Collaborate has some of the same features.

01:19:45 Timothy Kennedy: Are there any dimensions that create an infinite path?

01:19:59 Samuel Zimmermann: teach in GeoGebra Fraction

01:20:12 Carmen Watkins: He talked about the breakout rooms on his chat on Tuesday, I think there is a recording of it somewhere.

01:20:28 Liwa Sleiman: do you have workshops for Microsoft Teams?

01:20:50 Priscilla Galliano: Where could I find more webinars like this?

01:21:01 Pam Richards: would love microsoft teams- we use that with middle school

01:21:24 Timothy Wilson: Any tips for using Geogebra with breakout chat rooms like we just saw?

01:21:32 Linda Rozman: problem base learning is not what our district uses. How do I learn how to implement problem base learning online?

01:22:07 Shannon Pasvogel: Today we are so happy to announce our newest feature: Video Breakout Rooms. We're providing this feature for free to ALL Zoom accounts.

What are Video Breakout Rooms? Good question! Video Breakout Rooms allow the Zoom meeting host to create smaller groups within a larger meeting or training session. They have many key features for our customers:

Flexible: Allows employees and students to work more productively in smaller teams as needed. A team can alert the host when they need help, and the host can visit any of the breakouts to assist and answer questions.

Feature-Rich: In their Video Breakout Rooms, attendees can use video, audio, chat, whiteboards, and screen sharing to collaborate.

create sessions
Scalable: Main meeting can hold up to 200 attendees; the host can automatically or manually divide meeting participants into up to 50 breakouts. Blog post

01:22:47 Mangai Neelavannan: Thank you, Mike!

01:22:48 Salim Rana: frozen

01:22:49 Timothy Zaun: I wonder if I could use this with third-graders on an IEP?

01:22:51 Pam Richards: does microsoft teams have these same kinds of

features?

01:23:00 Amanda Ruppel: Can you put the code for the slides again?
01:23:34 James Coombs: text Teachonline2 to 44222
01:23:42 Ursula Davies: great idea!
01:24:01 Chonda Long: The recording from Tuesday and the recording from tonight will be on this page
