All of the above must be present for the grant application to be further evaluated.

II. PROPOSAL

Need and Context

1. Clearly communicate the rationale for your project aligned with the purposes of this grant (i.e., supporting mathematics teaching that integrates culture and language). What needs are you aiming to address, and why?  

2. Provide school-specific data relevant to the needs and goals of your project (e.g., urban/rural/suburban context, demographics, academic mathematics performance, access to professional development).

Plan

3. Describe the proposed goals and related action plan for the project including staff development plan, mathematics content focus, the role of culture and language in teaching mathematics, the number of teachers and students affected, and its impact on performance.

4. Describe how the project’s specific professional development plan will meet the identified needs.

Outcomes

5. Describe the anticipated impact on project teachers and the assessment plan to measure impact on project teachers. In other words, how will you gauge success?

6. Describe how you expect to assess the project’s impact on students’ learning of mathematics content.

III. BUDGET

1. Include an itemized and realistic budget with justification for each line item.

IV. PRINCIPAL’S LETTER

1. Communicates ability of grantee, faculty, staff, or students to achieve proposed goals (not a letter of recommendation).

2. Include administrative commitment (funds, time, space, resources, etc.).
