*Mathematics
Teacher: Learning
and Teaching PK–12
Launches the MTLT
Journal Club*

Kick-Off Meeting and Discussion
Tuesday, October 12, 2021, at 8:00 p.m. (Eastern)

NCTM's monthly journal *Mathematics Teacher: Learning and Teaching PK–12* is pleased to announce the formation of a **journal club** that will be designed to stimulate discussion and inform future content in *MTLT*. The newly formed *MTLT* Journal Club provides participants with an opportunity to connect as we revisit articles previously published in NCTM's legacy journals (i.e., *Teaching Children Mathematics*, *Mathematics Teaching in the Middle School*, and *Mathematics Teacher*). Participation in the *MTLT* Journal Club is open to all. You don't have to be an NCTM member to participate.

Join us Tuesday, October 12 at 8 p.m. (EDT) as we revisit the article "[Speaking Up and Speaking Out about Gender in Mathematics](#)," published in 2016 in *Mathematics Teacher*. Written by Laurie Rubel, this article discusses the need to expand the focus on diversity and equity in mathematics education to include gender and sexuality.

If you'd like to join this informative and important discussion, **please RSVP by email (sdean@nctm.org) no later than October 8, 2021.**
