NEW RELEASES, FEATURED & COMING SOON

**CATALYZING CHANGE SERIES**

Success Stories from Catalyzing Change  
Edited by Karen Graham, Robert Q. Berry III, Sarah B. Bush, and DeAnn Huinker  
Experience the journeys of mathematics educators as they implement key recommen-  
dations from Catalyzing Change. These inspiring stories highlight the challenges and successes of implementing equitable teaching practices in classrooms everywhere.

- **Early Childhood and Elementary Mathematics**  
  © 2020 | Stock #15928 | 166 pp. | ISBN 978-1-68054-042-0  
  Nonmember $48.19 | Essential $36.19 | Premium $33.73

- **Middle School Mathematics**  
  Nonmember $48.19 | Essential $36.19 | Premium $33.73

- **High School Mathematics**  
  © 2018 | Stock #15637 | 126 pp. | ISBN 978-1-68054-014-7  
  Nonmember $48.19 | Essential $36.19 | Premium $33.73

**MATHEMATICS LESSONS TO RESPOND TO SOCIAL INJUSTICE SERIES**

The Mathematics Lessons to Explore, Understand, and Respond to Social Injustice series was written for teachers committed to developing equitable and just practices through the lens of mathematics content and practice standards as well as social justice standards. This series will help connect content to students’ daily lives, fortify their mathematical understanding, and expose them to issues that will support them in becoming active citizens and leaders.

- **Upper Elementary**  
  Tonya Gau Bartell, Cathery Yeh, Mathew D. Felton-Koestler, and Robert Q. Berry III  
  Nonmember $41.59 | Essential $31.19 | Premium $29.11

- **Middle School**  
  Basil M. Conway IV, Lakeefah Id-Deen, Mary Candace Raygoza, Amanda Ruiz, John W. Staley, and Eva Thanheiser  
  Nonmember $41.59 | Essential $31.19 | Premium $29.11

- **High School**  
  Robert Q. Berry III, Basil M. Conway IV, Brian R. Lawler, and John W. Staley  
  Nonmember $41.59 | Essential $31.19 | Premium $29.11

NOTICE AND WONDER TEACHING SERIES

Teaching Math to Multilingual Students, Grades K–8
Kathryn B. Chval, Erin Smith, Gina Trigos-Carrillo, and Rachel J. Pinnov
This guide offers practical approaches that equip K–8 teachers to draw on the strengths of multilingual learners, partner with their families, and position these learners for success. Case studies and activities are included that provide a solid foundation for teachers’ growth and exploration.

Nonmember $39.21 | Essential $29.41 | Premium $27.45

Good Questions: Great Ways to Differ-entiate Mathematics Instruction in the Standards-Based Classroom, 4th edition
Marian Small
With more than 50 new questions and a new chapter on financial literacy, the book shows teachers how two powerful and universal strategies: open questions and parallel tasks. This edition includes direct links to Common Core Content Standards and Standards for Mathematical Practice. Parallel tasks and question examples are provided at each grade band: K–2, 3–5, and 6–8.

Margaret S. Smith and Mary Kay Stein
The five manageable practices explained in this book have the power to put teachers in control of productive classroom discussions. The model—anticipating, monitoring, selecting, sequencing, and connecting—focuses on prior planning and limits the amount of improvisation required during the lesson.

Nonmember $37.76 | Premium $26.43

The five practices—anticipating, monitoring, selecting, sequencing, and connecting—for facilitating productive mathematical conversations in classrooms at all levels and learn to apply them with confidence. These follow-ups to the modern classic, Five Practices for Orchestrating Productive Mathematics Discussions, shows each practice in action in K–grade 12 classrooms and empowers teachers to be prepared for and overcome the challenges common to orchestrating math discussions.

Successfully Orchestrating Mathematical Discussions in your Elementary School Classroom
Margaret (Peg) Smith, Victoria Bill, and Miriam Gamoran Sherin
Nonmember $39.21 | Essential $29.41 | Premium $27.45

Successfully Orchestrating Mathematical Discussions in Your Middle School Classroom
Margaret (Peg) Smith and Miriam Gamoran Sherin
Nonmember $39.21 | Essential $29.41 | Premium $27.45

Successfully Orchestrating Mathematical Discussions in Your High School Classroom
Margaret (Peg) Smith, Michael D. Steele, and Miriam Gamoran Sherin
Nonmember $39.21 | Essential $29.41 | Premium $27.45

Smarter Together! Collaboration and Equity in the Elementary Math Classroom
Helen Featherstone, Sandra Crespo, Lisa Jilk, Joyce Osland, Ami Parks, and Marcy Wood
The authors describe the lessons they learned using group work, explain how complex instruction helps unsuccessful students, and analyze how to design assignments that support group learning—using group-worthy tasks—giving readers examples of good tasks and help in adapting math problems from their own curricula.

Nonmember $46.35 | Essential $34.76 | Premium $32.45

S'D: Fostering and Improving Small-Group, Student-to-Student Discourse
Sarah Quebec Fuentes
Productive small-group work affords many opportunities for students to develop a deep understanding of mathematics. This book provides a step-by-step plan of action for creating a classroom in which small groups engage in their own deep mathematical discourse—without the constant intervention of their teacher—and every student’s voice is heard.

FAVORITE TEACHER RESOURCES

Reimagining the Mathematics Classroom

Cathy Yeh, Mark W. Ellis, and Carolee Koehn Hurtado

This book presents a comprehensive systems approach to examining mathematics teaching. It synthesizes and illustrates current research on the essential elements of mathematics teaching and learning, unpacking each component. In addition, tips on using technology to assess and enhance learning are embedded throughout the book.

Nonmember $33.26 | Essential $24.95 | Premium $23.28

Project-Based Learning in Elementary Classrooms: Making Mathematics Come Alive

Kathryn B. Chval, Erin Smith, Lina Trigos-Carrillo, and Rachel J. Pinnow

This book presents an overview of the essentials of project-based learning (PBL) and the evidence that supports the use of PBL. It showcases PBL units addressing the CCSS for Math for the purpose of demonstrating how PBL works and the learning that results.

Nonmember $47.54 | Essential $35.66 | Premium $33.28

Rigor, Relevance, and Relationships: Making Mathematics Come Alive with Project-Based Learning

Edited by Jean S. Lee and Enrique Galindo

This book supplies teachers with a challenging and rewarding new way to deeply engage their students in secondary mathematics. *Rigor, Relevance, and Relationships* describes the nuts and bolts of designing an effective PBL unit, outlines how this method can help prepare students for future challenges in life and learning, and showcases a number of classroom-tested examples of PBL lessons.

Nonmember $42.78 | Essential $32.09 | Premium $29.95

Principles to Actions: Ensuring Mathematical Success for All

Series Editor, Margaret S. Smith

*Principles to Actions* offers guidance to teachers, specialists, coaches, administrators, policymakers, and parents. It builds on NCTM’s classic *Principles and Standards for School Mathematics* to present the six Guiding Principles for School Mathematics. With this ground-breaking volume, NCTM has taken the next step in shaping the development of high-quality standards globally.
